

## Che cos'è la disinformazione?

**Informazioni false o fuorvianti** diffuse in maniera intenzionale o meno.

## Sì, ma come si misura?

Grazie ai **FactCheckers**, possiamo valutare quanto affidabile sia una notizia!

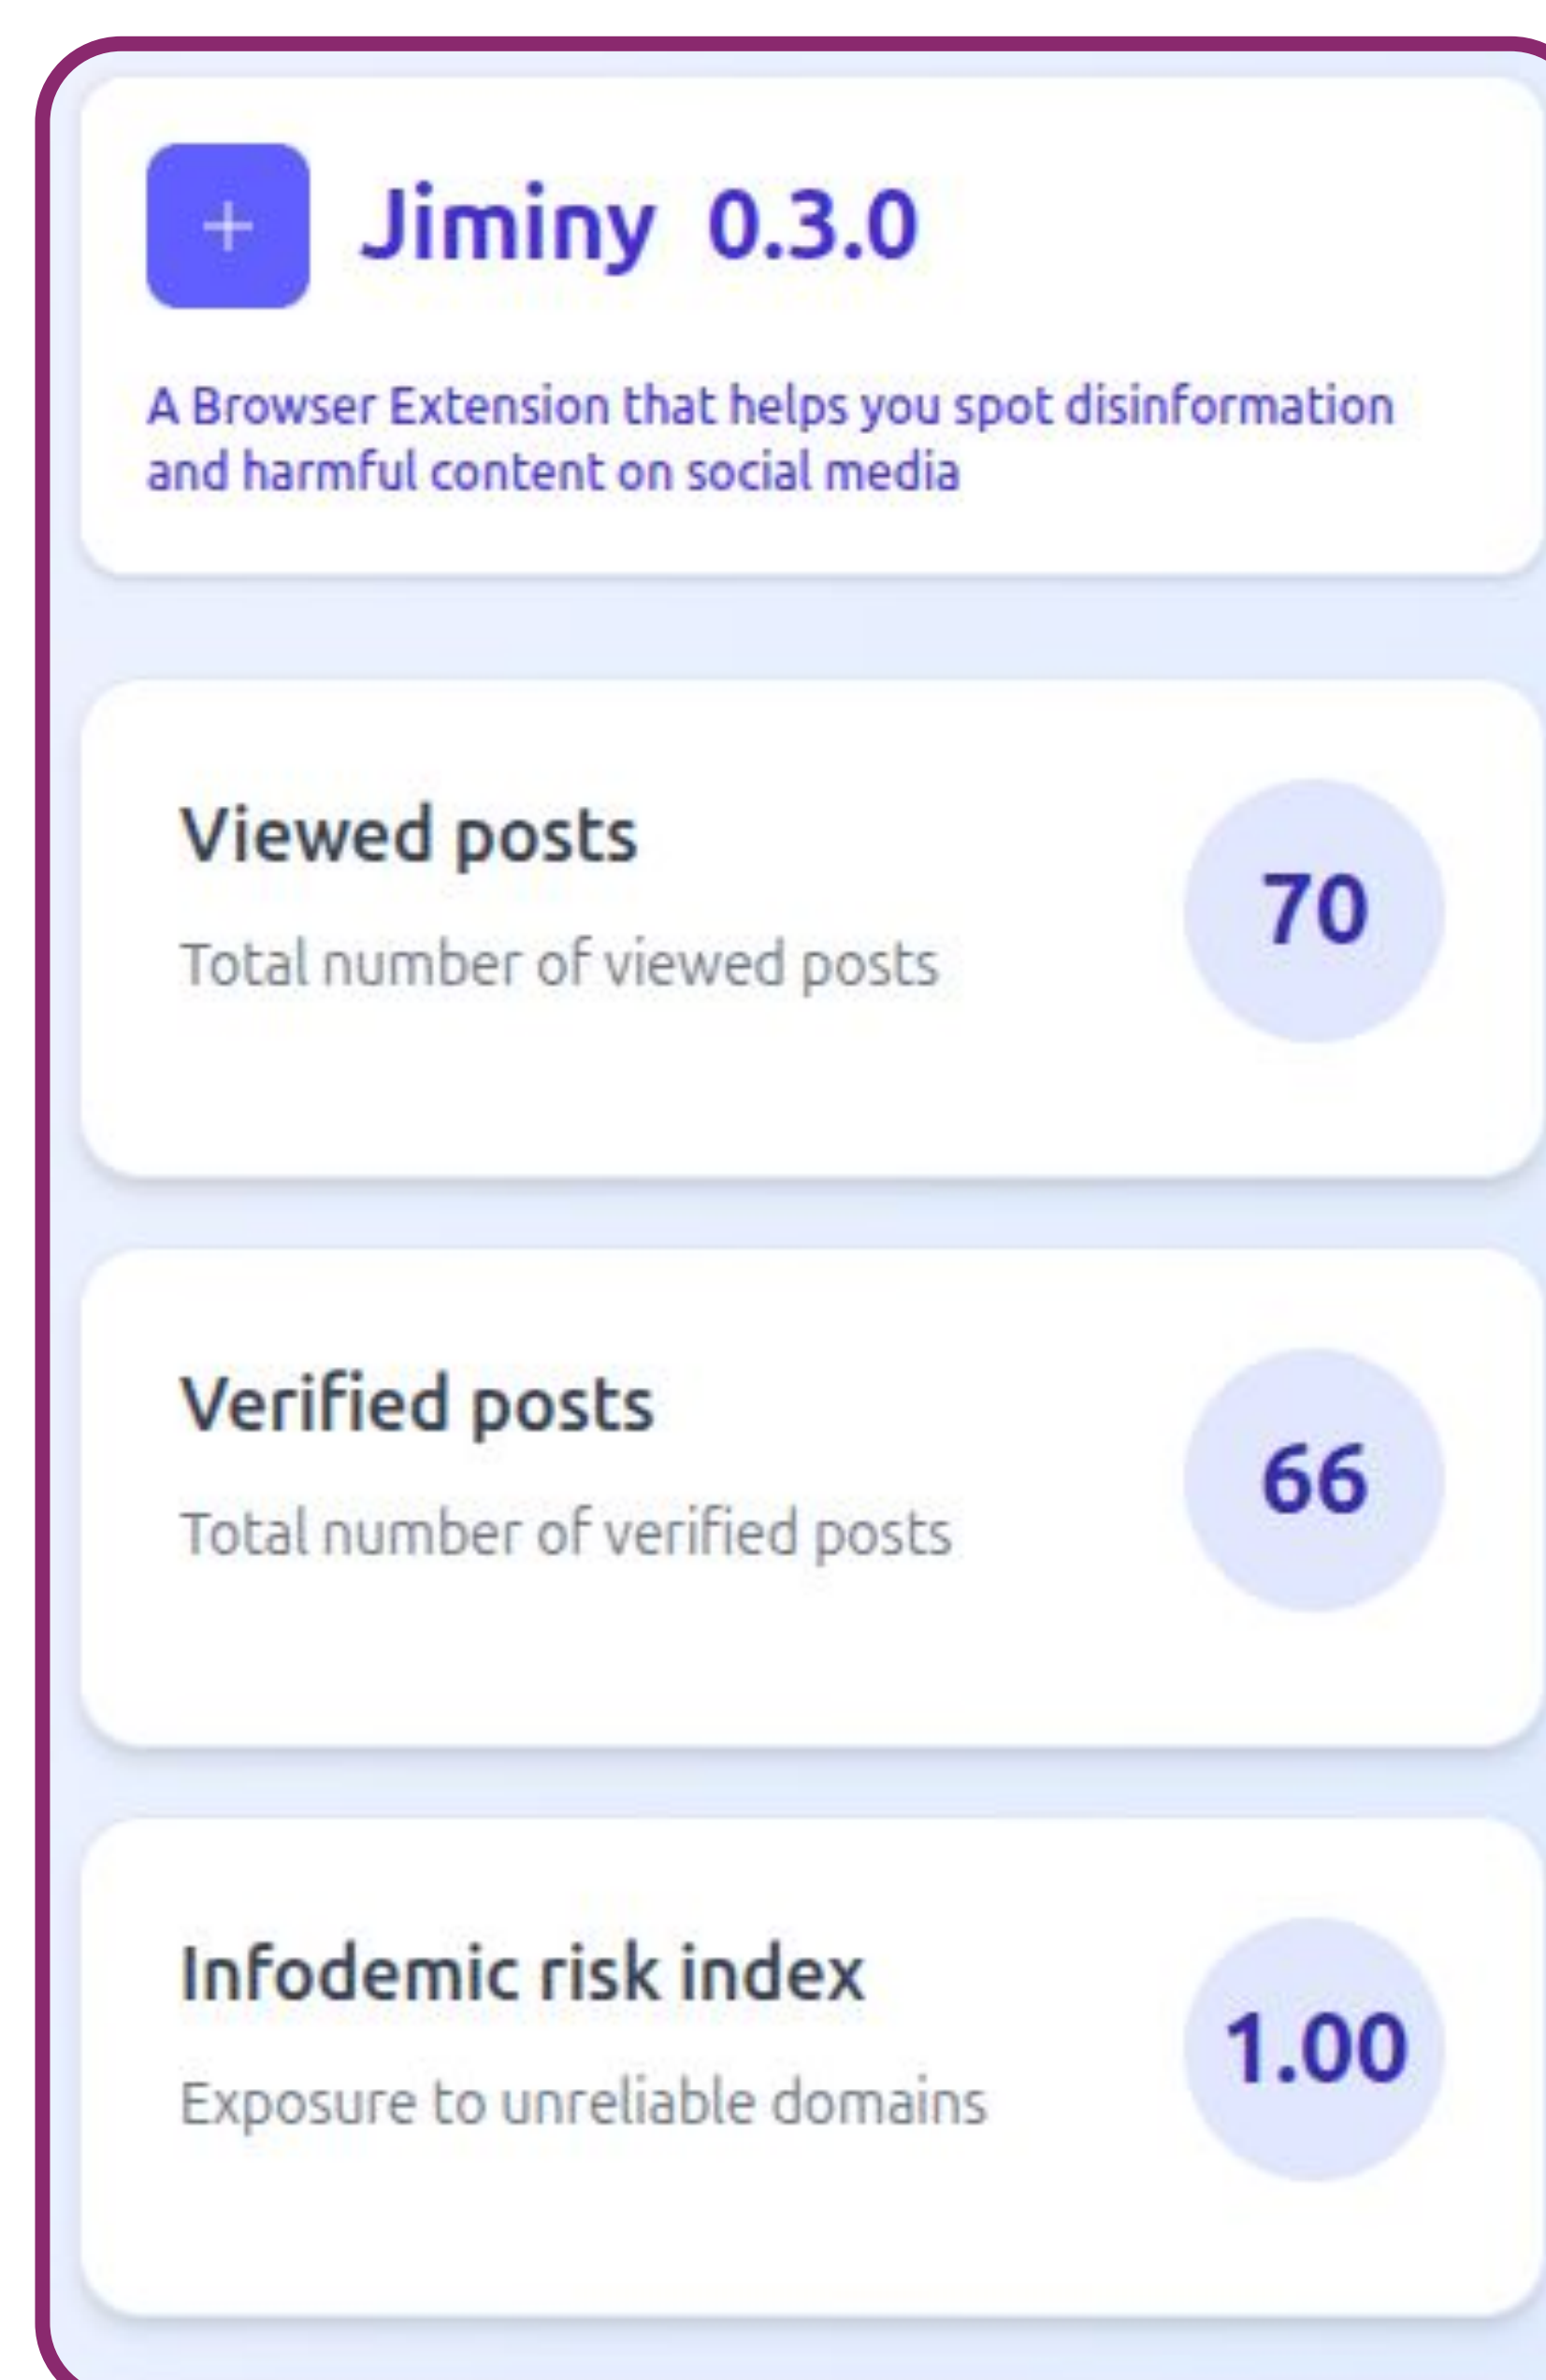

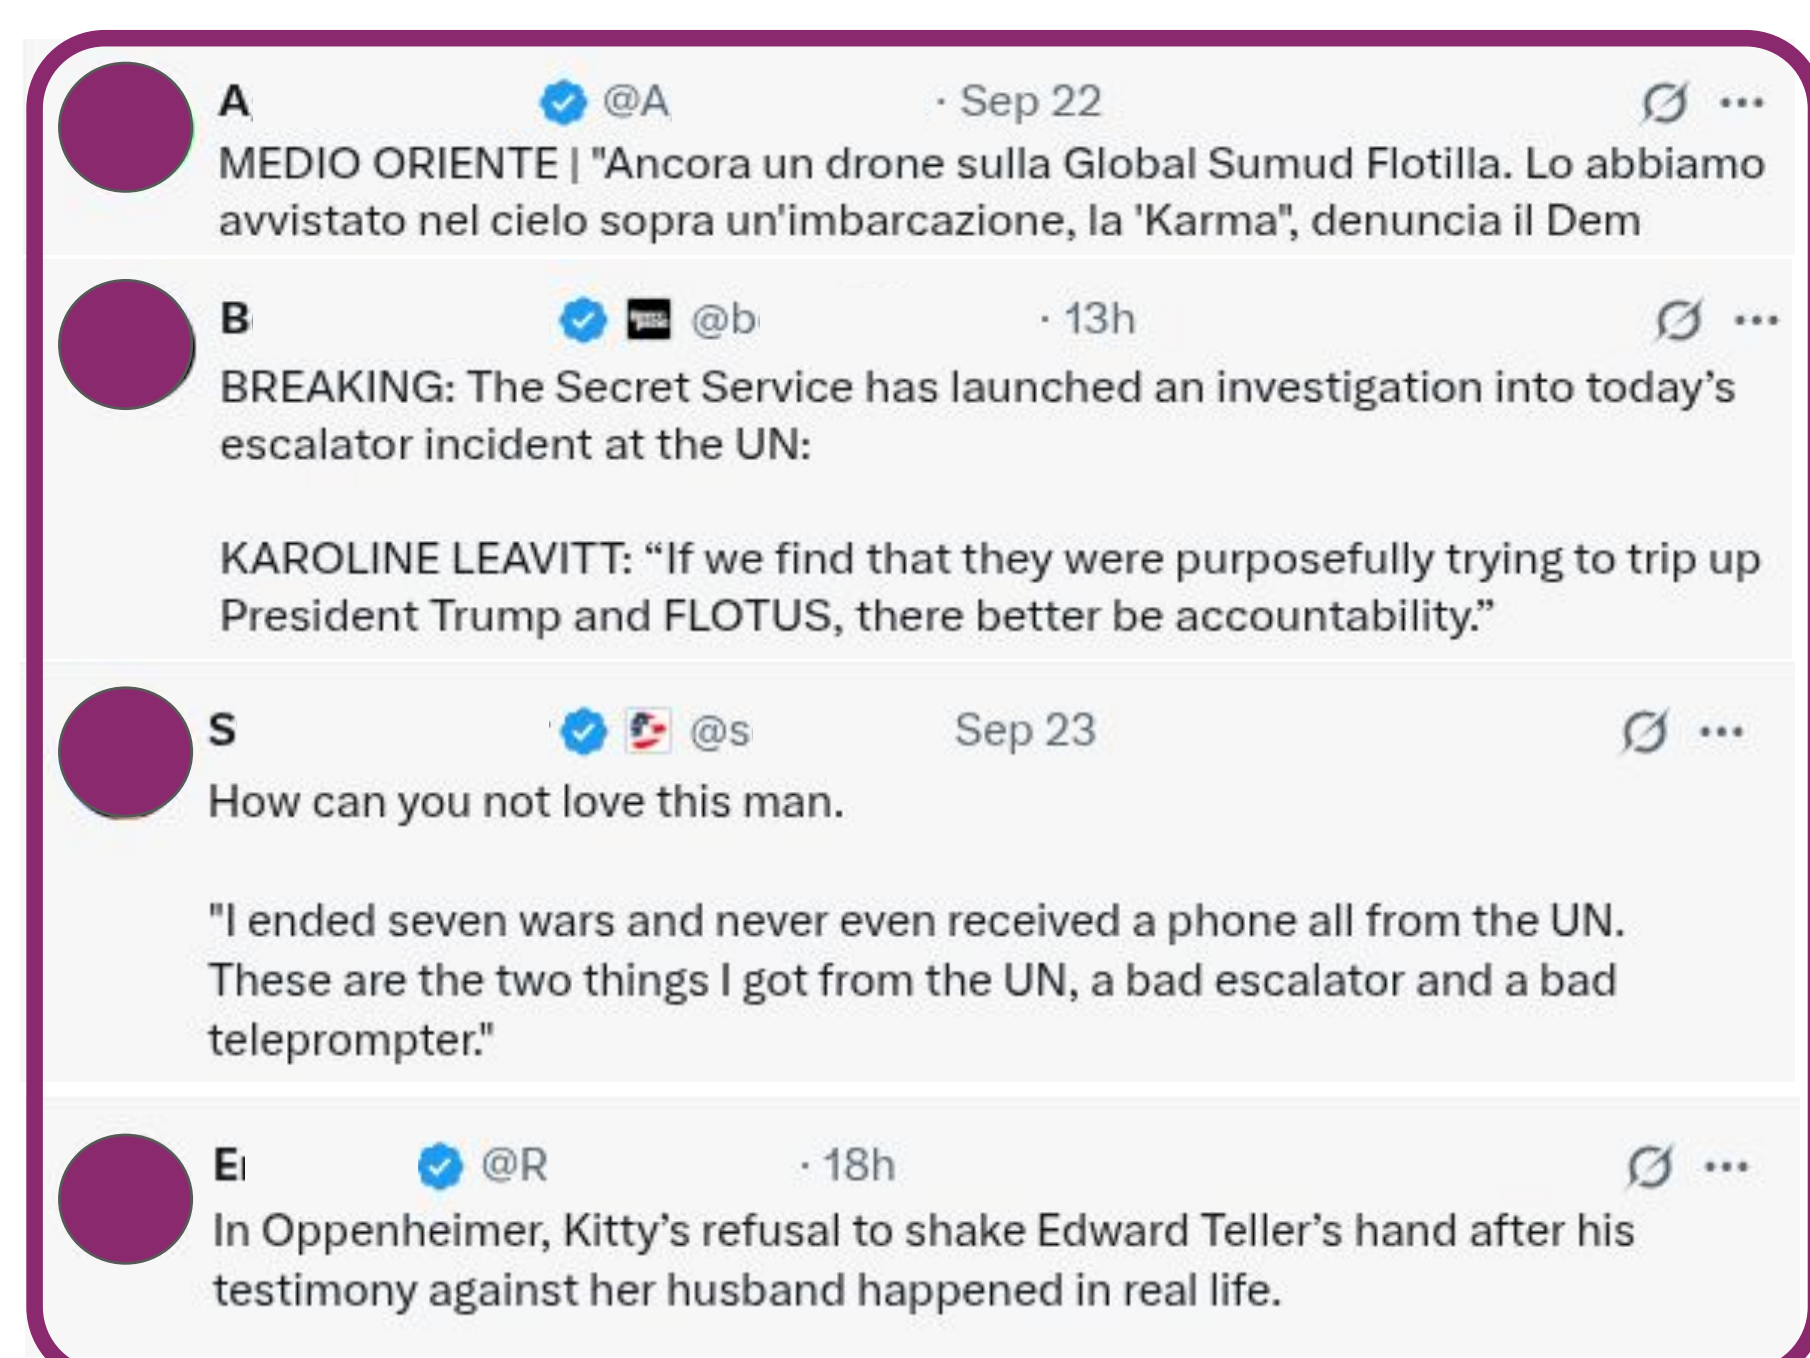

**Notizie Affidabili**  
(MainStream Media, Scienza) ✓

**Notizie False**  
(Conspiracy, Fake, Politica, Clickbait, Satira) ⚠

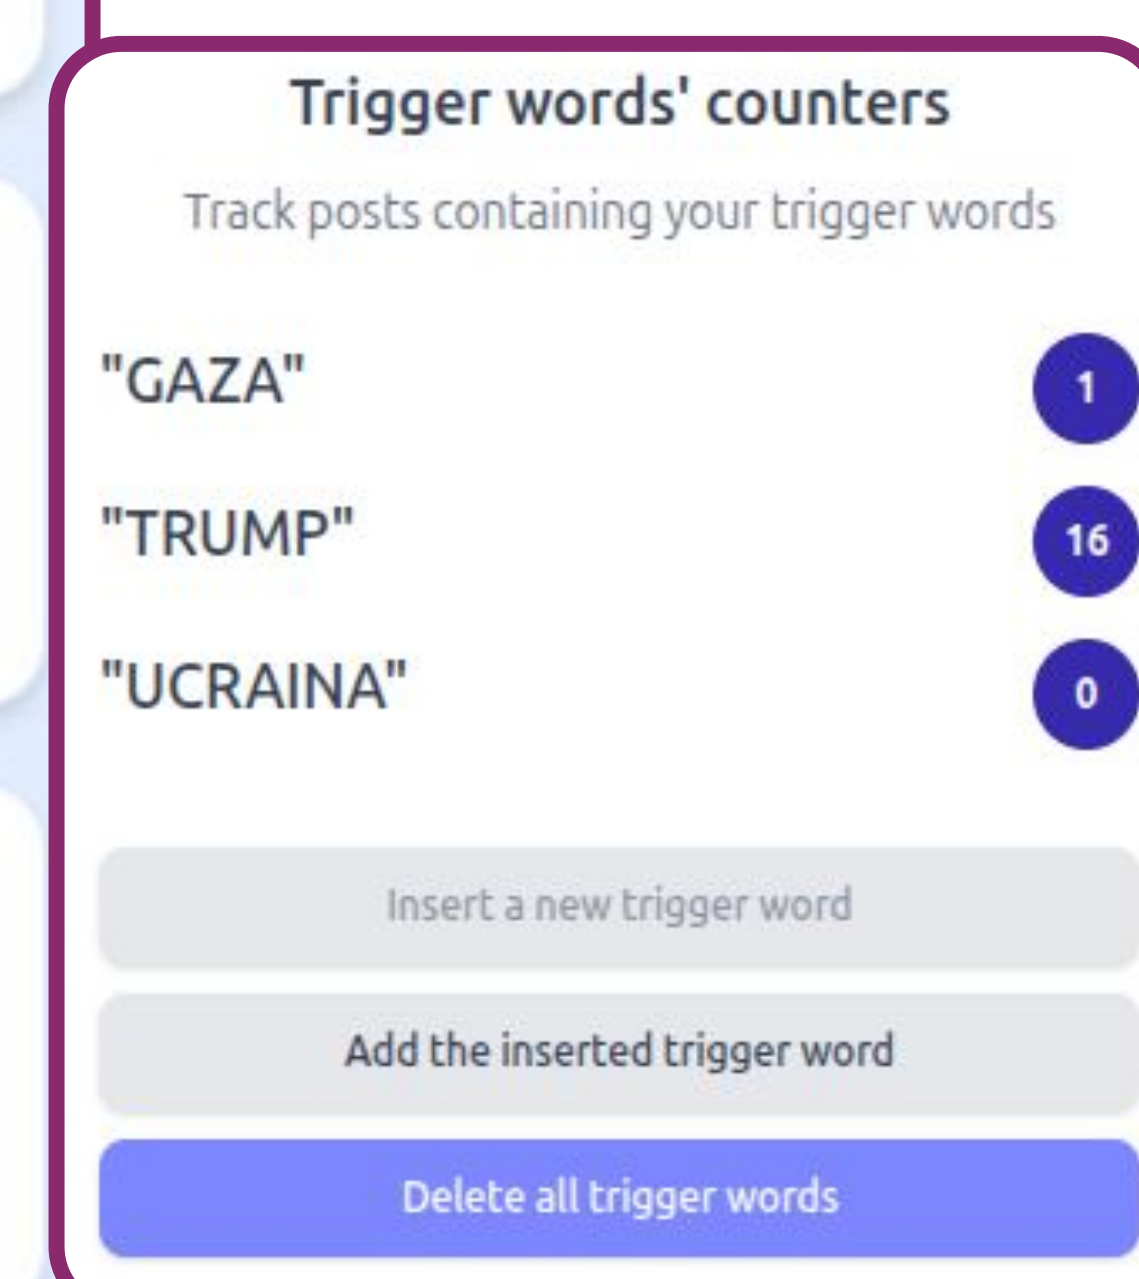

- **IRI (exposure)**: Numero di volte in cui il post è stato visualizzato
- **Dynamic IRI (engagement)**: Numero di retweet e risposte al tweet

## Come posso migliorare la mia esperienza online?

Grazie a **Jiminy**! L'estensione browser che ti aiuta a valutare la tua esperienza online!

Scarica qui la  
versione beta!
